

# **Ped Day Fall 2015**

Presenters: Kathy Morrison and TBA (member of the DALC)

Morning session: 2hrs

Number of participants: maximum of 36

## **Title: Learning to use the SMARTBOARD in your classroom**

Wondering what that SMARTBOARD can do for you? Well this workshop is for you. This workshop is intended for beginner SMARTBOARD users. The hardware of the SMARTBOARD and the software the runs on the SMARTBOARD will be introduced to participants. This will be a hands-on workshop intended for people who will “get up” and use the technology. The two-hour workshop will go from the basics of turning on the SMARTBOARD, creating and manipulating objects, using multiple writing and object tools to creating lesson plans. We will also discuss best practices for the use of the board in a classroom in order to maximize student learning.
