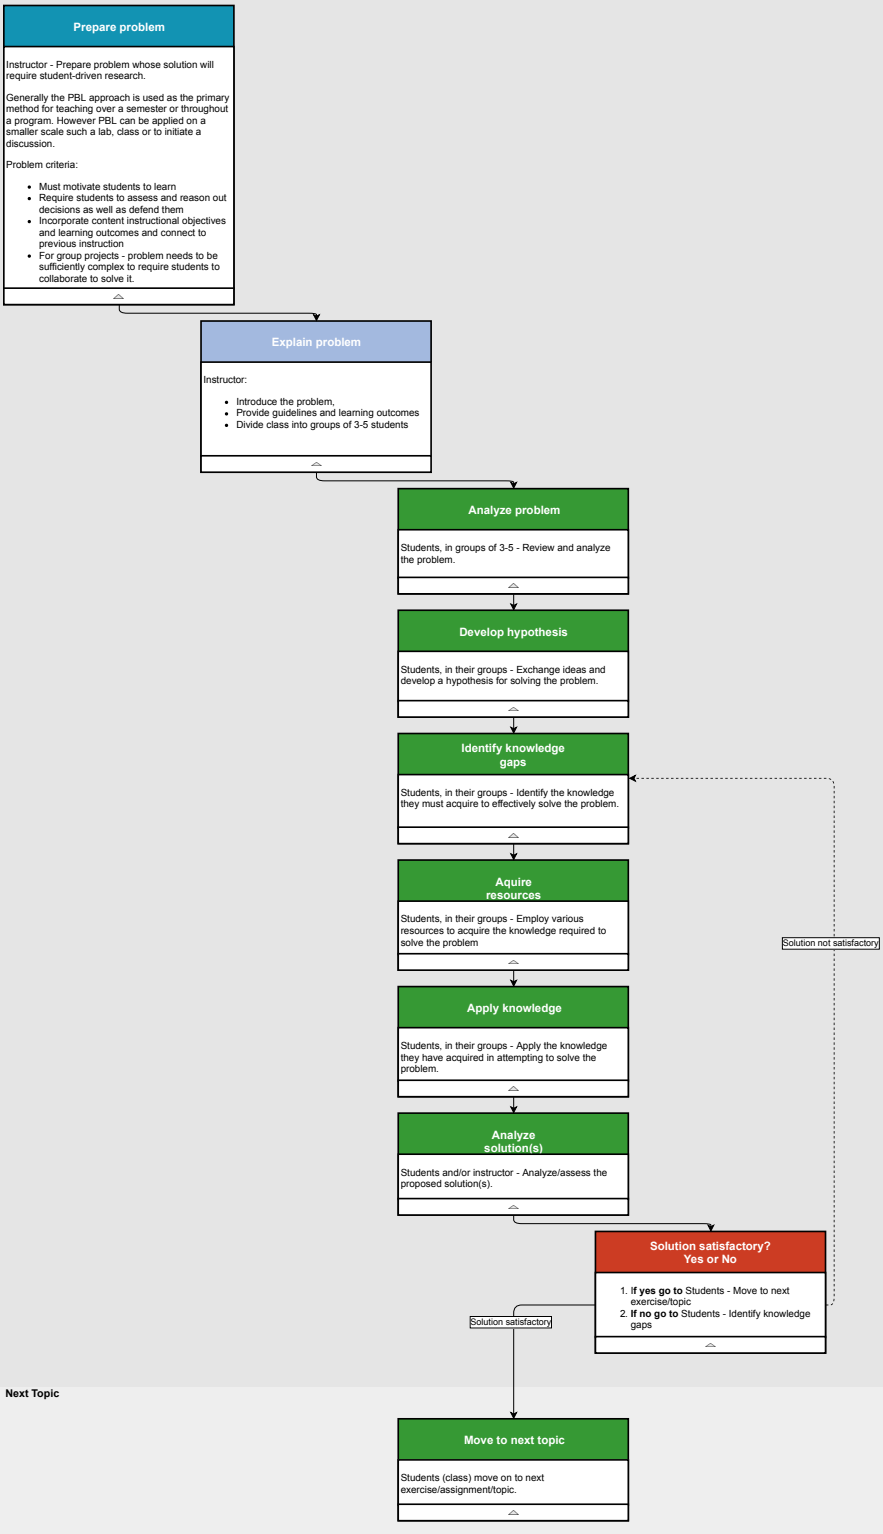
Problem-based Learning

SALTISE

Description:

Problem-based learning promotes critical thinking, group collaboration, communication and problem-solving. Consult the SALTISE website for more details on Problem-based Learning and to see how other instructors in the SALTISE community are using this in their courses visit Problem-based Learning Activities

Preparation (Instructor) | **In Class (Instructor)** | **Activities (Students)** | **Assessments** | **Artifacts**


An instructional approach where students learn through the direct experience of solving problems.
