

## WELCOME TO THE AMAZING ETHICS RACE (post on LEA)

### 2018 Edition

On Wed. Dec. 6 during class time you will be challenged to show everyone your expertise in ethics.

During the nursing 111 Ethics Seminar you will travel throughout the college to various stations via clues that are given to you. At each station you will participate in an ethics related activity and some stations will also have a simple physical activity to complete.

#### Rules of the Race:

1. **DO NOT RUN AND PLEASE BE QUIET IN THE HALLWAYS!**
2. Dress in comfortable clothes and shoes; leave your belongings in your lockers.
3. You will be competing as a team; teams will be your clinical groups (14 teams).
4. Do not share your answers with other teams; this is a challenge !!! There can only be one winning team. All members of the team must arrive at the station together and leave together.
5. Bring your ethics/ legal issues/ nursing outlook notes and a pen
6. Each group will require a cell phone to take a "selfie" at one of the stations.
7. The start of the race is at 10:30 am sharp in B223 (be on time)
8. You have 1.5 hours to complete the activities. At each station your group's "Ethics Passport" will be stamped when you complete the activity. You must hand in the clue sheet for each station when you arrive at your final destination.
9. If you require a hint at any given station you will have 1 minute added to your time at the finish line.
10. First team to stand on the podium at the end and take a group selfie wins an awesome prize.

*We hope you have fun reviewing and applying your ethics theory in this activity. See you on Wednesday!*

*This is considered a regular class and attendance will be taken.*

# AMAZING RACE STATION PASSPORT

TEAM NAME \_\_\_\_\_

Team members: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

STATION	MONITOR SIGNATURE
STATION 1	
STATION 2	
STATION 3	
STATION 4	
FINAL STATION	Time arrived:

## Amazing Race Notes from previous years

1. Inform security that we are doing this in advance. (security security on email)
2. Post guidelines on LEA (Welcome to the Amazing Ethics Race)
3. Photocopies needed of : passports (= number of clinical groups); amazing race certificate (=max number in a group on cardstock); each clue needs to be copied on pink and blue paper (eg: if 14 clinical groups 7 pink and 7 blue); need copies of the exercises for each station (14 copies)
4. Each clinical group is a team; if people absent the team remains the same unless only 1 person in the group.
5. Each team is given a station passport and they will get signatures at each station once task is completed.
6. When a group shows up at your station they must show you the clue to check in and we will staple it to their passport
7. Remind the students not to run in the hallways and to keep their voices down
8. Groups must stick with their group and not run off searching for the next clue/ each activity is to be completed by the group.
9. When groups arrive at the "final " destination we must **collect their passport and check that the people who are listed on the passport are all present. (attendance purpose)-if a person is missing then the forfeit their completion of the race;** keep track of the time it took everyone to complete the race
10. Each team takes a selfie at the end , not just the winning team.
11. Keep all activities the same!
12. Give them an activity to complete at the end (maybe the extra Case of Janice's station)...so people don't get bored waiting for other teams.
13. Our clues were good, but we might want to change some of the places we send them to as "word" may get around for next year.....

Blue Circuit: leave B223 with clue to go to bookstore...Station 3 at Bookstore.....>once complete give clue to Station 2 Sport complex....> once complete give clue to go to Station 4 Lab.....> once complete give Final Destination Clue which brings them to bulletin board to go back to B223

Pink Circuit: Leave B223 with clue to go to Station 2 Sport complex...> once complete give clue to go to Station 4 Lab ....> once complete go to Station 3 with Tina....>once complete give final destination Clue to go to bulletin board which tells them to go to B223

Station 1= B223

Station 2 = Sport complex

Station 3= Jakes bookstore

Station 4 = Lab

Final Destination= B223 (final destination clue is **Orange or Yellow** and they must have it when they arrive in B223)
